

I am on the IN state no-call list and have been since it was available. My family and I enjoy our un-interrupted evening meals and weekends since we signed up. I was getting at least 6 to 10 calls per week, now we maybe see 2 to 3 per month. And the calls were running into the evening as late as 10pm. No excuse for that! I feel that you should not implement any proposal that would lessen our IN telephone privacy law. Thank you for your time. Maureen Gentry
